Title: In the Wake

Source: Macbeth

Description: In the play Macbeth, Shakespeare uses the imagery of fire to symbolize the chaotic and destructive nature of Macbeth and Lady Macbeth's reign. Similar to a wild fire, these two and their burning ambition for power left the kingdom in devastation and ruin. This imagery is also used as a way to symbolize not only their life but also their death. This is seen first after Lady Macbeth's death when a candle is suddenly blown out, and again as Macbeth dies, and the raging forest fire is extinguished. Leaving nothing but ash and scarred earth behind. This dance depicts the burden carried by those under Macbeth's tumultuous reign and the affects their bloodlust and drive for power had on the common people's lives. For just as a fire leaves the earth charred and maimed in its wake. So do the people of the kingdom bear the marks of Macbeth's devastating quest for power.

Title: In Silence

Source: Sonnet 66

Description: It is not widely known that as a writer during the Elizabethan era, Shakespeare's work was under strict censorship and governmental control. In a time where self expression was dangerous, writers and artists were forced to modify their artistic expression. To fit the mold and perspective of those in authority, certain topics were banned or otherwise restricted. Failure to adhere to these restrictions resulted in consequences such as the loss of their hands, or as severe as the loss of their life. This censorship is mentioned in Sonnet 66 when Shakespeare writes "And art made tongue-tied by authority". This dance depicts the weight of silence as artists, such as Shakespeare, struggled within the binds of this oppression.
